Spatial Human Cooperation Meeting

Max Planck Institute for Evolutionary Biology, 26th- 28th May 2014

From theory to experiments... and back!

The meeting focuses on the evolution and maintenance of cooperation in spatial systems, a topic which is of interest to scientists from different fields ranging from biology, economics, mathematics, physics to social sciences. Our goal is to discuss recent behavioural experiments of human cooperation in spatial systems and their relation to a large body of existing theory.

Invited Speakers

Jelena Grujić	Angel Sanchez
Christoph Hauert	Francisco Santos
Yamir Moreno	Dirk Semman
Jorge Pacheco	György Szabó
Matjaž Perc	Corina Tarnita
	Aljaž Ule

Further information and Registration

<http://web.evolbio.mpg.de/shcmeeting2014>

Deadline 15th of January 2014 | Enrolment limited to 30 participants

Venue

Max Planck Institute for Evolutionary Biology, Plön, Germany

Scientific coordinators

Chaitanya S. Gokhale
Yixian Song
Arne Traulsen
Bin Wu

Organisation

Ursula Krützfeldt
